Levels in the spanish courses

The Centro de Estudios Hispánicos offers courses all year round except August. Our classes are designed to fit the needs of all our students.

Our excellent team of teachers, very qualified and with an ample experience, together with the limited number of students per class makes an interactive, communicative, and personalized methodology reality.

A1 and A2

Their aim is to make students acquire the necessary vocabulary and grammar in order to cope with daily situations. Moreover, cultural references may help students to familiarize themselves with the Spanish society.

B1 and B2

In these levels, it is studied in depth the structure and the written form of the language, though the spoken language will still be priority within the communication. Acquisition of new vocabulary and knowledge of Spanish life are also fundamental objectives. Upon completion of B2 student will be able to communicate fluently and naturally.

C1 and C2

Students at these levels learn how to express themselves fluently and use the language in a flexible and effective way for social, academic and professional purposes, since there are a wide variety of courses.

Placement tests

On the first day students take a placement test to determine their Spanish level. Therefore, students' participation in class can be adjusted to their knowledge of Spanish.

Orientation session

All students have on the very first day of their program an orientation session about academic aspects, university life and living in Madrid.

Class schedule

Classes are held between 8:30 am to 2:30 pm. Classes last 90 minutes, including the 10-minute break.

Academic transcripts and certificates

An academic transcript for each student will be sent to the visiting university specifying the courses, the number of credits, and the student's grade.

All of our levels comply
with the common
european framework
of reference
for foreign
language
learning.

The Centro de Estudios Hispánicos

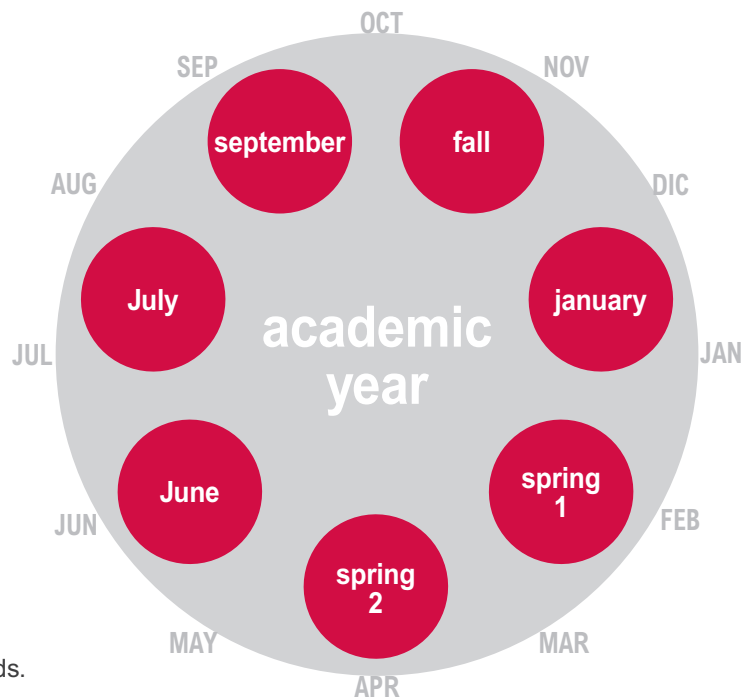

Our Spanish courses are designed for anyone over 18 who would like to learn about Spanish culture or improve their Spanish language, from beginners to heritage speakers.

Our courses combine the teaching of language and culture because we are convinced that it is not possible to learn a language without understanding people's way of thinking, behaving and living. The programs include cultural and recreational activities in Madrid as well as a great variety of appealing extracurricular activities.

Spanish courses are given all year around (except the month of August) in seven different programs.

The flexibility of our courses lets students choose any program or combine various programs from these periods.

The Centro de Estudios Hispánicos offers an international atmosphere within a Spanish university. It is located in the Dehesa de la Villa Campus, in the city of Madrid. All students have access to free WIFI, computer labs, library, cafeteria, etc., and can also request housing and other services.

The Centro de Estudios Hispánicos has been a worldwide reference centre in the teaching and research of spanish as a foreign language for 25 years.

General Information

Activities

Our courses and programs are complemented with numerous cultural activities in Madrid as well as with excursions and trips outside the capital.

Cultural activities

Each of our programs includes, with no additional cost, 6 activities such as walking tours in Madrid, visits to the Prado Museum, the Reina Sofía Museum, the Royal Palace, the Senate, the Parliament, lectures, etc.

Extra-curricular activities

There are many other activities with an additional cost that are offered throughout the year: theaters, shows, dance classes, etc.

Excursions

Each program offers three guided one-day excursions. They are not included in the program fee. The places could be Toledo, Segovia, Salamanca, El Escorial and they take place on Saturdays. Round-trip bus fare, tour guide and sightseeing are included in the price.

Sports club and international club

The activities of these two clubs help international students to integrate themselves in the Spanish university environment.

Additional services

SPANISH FAMILIES

The Centro de Estudios Hispánicos offers its students housing with Spanish families. They can choose between half board and full board. Half board includes two meals: breakfast and either lunch or dinner. Full board includes three meals per day: breakfast, lunch and dinner. Spanish breakfast is very light and the most important meal is lunch. The university only guarantees accommodation during the dates of the program.

OTHER HOUSING

Students from the July Program can request accommodation in university residences. Availability will depend on the date of application. The Centro de Estudios Hispánicos does not arrange accommodation in hotels, hostels, or shared apartments.

TO APPLY FOR ACCOMMODATION

The first month must be paid in advance. Once received, the University will send the student the relevant details of the family or residence. Students who apply for accommodation must inform in writing at the moment they are applying if they have any diet or health restrictions, allergies, etc., which may affect their housing conditions.

MEDICAL INSURANCE

It is mandatory for students to have full medical coverage insurance in Spain. Nebrija offers their international students the opportunity of purchasing medical insurance with a prestigious insurance company in Spain. Students from the E.U. need the European Health Insurance Card to receive public coverage in Spain.

Living in Madrid

Madrid is one of the most dynamic European capitals with a population of three million inhabitants plus eight million annual visitors. It is known for its cultural and artistic activity and its appealing night life. It is a cosmopolitan city, a business centre, seat of the Spanish Parliament and government.

Main features

Madrid is characterized by its open mentality and hospitality. Madrid is a melting pot of cultures where anyone can easily feel at home

Transportation

Madrid has one of the best public transportation services in the world.

Climate

Madrid has many sunny days throughout the year. It has a continental climate, with cold winters and hot summers, although its temperatures are rarely extreme. In the peak of winter, temperatures are around 7°C (43°F). In July and August, temperatures can reach 33°C (90°F).

Situation

Madrid has an exceptional location: in the centre of Spain, so that travelling is easy and cheap within Spain and into other European capitals

Nebrija Campus

Situated in the city of Madrid with easy access by bus and subway.

Live in a college environment together with Spanish and international students:
